It's a new kind of math.

$12 million + 138 schools + 60,000 students + 4,000 teachers and administrators = 1 better state

With one $30 million gift from AT&T Oklahoma and the vision of former Oklahoma Attorney General Drew Edmondson in 2001, the Oklahoma Educational Technology Trust was created and education was changed for the better.

Managed by Communities Foundation of Oklahoma, OETT funds new technology equipment in classrooms and provides specialized professional development for teachers.

Long gone are the days of big computer labs and overhead projectors. Students in OETT schools have learning in the palms of their hands...literally. Technology may be getting smaller but the opportunity to use it for learning is bigger than ever.

That’s how to describe learning...if you’re at an OETT school.
phase I—leadership training

To help administrators and teachers better understand what is necessary for school and student success, OETT contracts with the K20 Center for Educational and Community Renewal at the University of Oklahoma. Participants learn about IDEALS for Student Achievement and how they relate to technology use in the classroom.

phase II—granting process

Schools and districts whose superintendents and/or administrators have completed Phase I are eligible to apply for OETT grants. Phase II grants provide new technology equipment, professional development, and staff release time. Schools are selected through a blind selection process by grant review teams representing the technology and education fields as well as the overall community.

sustaining phase II grants

Sustaining Phase II grants provide additional funding for equipment upgrades, repair/replacement, and ongoing professional development needs to a limited number of past OETT grant schools.
phase II schools

Bartlesville High School
Choctaw High School
Grove Valley Elementary School, Deer Creek
Webster Elementary, El Reno
Idabel Middle School
Maryetta Elementary School
Steed Elementary School, Midwest City
Newcastle High School
Pocola High School
Ringwood Public Schools
Silo Elementary School
Sulphur Junior High School
Tuttle Middle School

sustaining phase II schools

Wanette Elementary School
Will Rogers Elementary School, Vinita

2010 grant schools

Steed Elementary School, Midwest City
Grove Valley Elementary School, Deer Creek
Wanette Elementary School, Will Rogers Elementary School, Vinita
In 2009, ten Oklahoma public schools received $650,000 from the Oklahoma Educational Technology Trust for new technology and professional development. The number of schools may have been smaller than in past years, but the impact was huge.

Pay It Forward. Teachers at Luther Elementary School have been instructing the Middle School teachers in technology use.

Let’s Work Together. Teachers at Newcastle Middle School and past OETT grant schools in Bridge Creek and Tuttle collaborate for new teaching and assessment ideas.

History in the Making. A Choctaw Nicoma Park Westfall Elementary School father, serving in the military in the Middle East, sends videos to his child’s class to introduce the students to life in a different country.

Our Town. Students in Copan’s Gifted and Talented program are collecting stories and creating a history of Copan for Oklahoma Voices.

Bienvenidos a Oklahoma. Dover Schools host computer and English classes for Hispanic parents after school.

**Exceeded Expectations:**
- Strong, shared & supportive leadership
- Professional learning communities being established
- Plan developed for sustaining or exceeding grant goals
- Staff committed to technology integration

**Met Expectations:**
- Traditional philosophy leadership
- Prominence of traditional secondary structure & isolation
- Minimal district support for professional development or technology equipment
- Multiple initiatives impeding significant progress
- Technology primarily a teacher tool

**Did Not Meet Expectations:**
- Lack of support for professional development at district and/or site level
- Significant resistance to change at district and/or site levels
- Combination of multiple factors listed in ‘Met Expectations’

**Sustainability:**
- Professional learning communities being established
- Staff committed to technology integration
- Staff committed to professional learning & sharing
- Evidence of practices of high achieving schools
- Four indicators present = Significant Success
- Three indicators present = Moderate Success
- One or two indicators present = Minimal Success
The key to success of the Oklahoma Educational Technology Trust grants is combining new technology with professional development. We are making more than just random acts of improvements in Oklahoma classrooms; we are focused on long term change.
